

Firewise Notes from Annual meeting ESRPOA

Linda spoke on the Firewise subject. She started by reading the recommendation letter for the Mitigation Innovation Award to the East Canyon ambassadors. She explained that the award was a national award. There were only twelve given nationally and six were presented in Colorado. Three were presented to Southwestern Colorado organizations. She passed around the award for the group to see.

Then she stated that there will be another fire and we need to prepare for it. She requested input and feedback from neighbors and ambassadors. She pointed out the information available on the entryway table.

She then read the resolution passed by the POA concerning the funding of mitigation work done by lot owners. She stated the need for ambassadors and lot owners to prioritize projects. She stated that there was a great need for an evacuation plan and drill. This concluded the Firewise talk.
